How to Establish TL 9000 Product Categories

Company decides to become TL 9000 registered

Company chooses registrar and discusses scope and Product Categories

Can the Company and Registrar determine Product Categories?

If a Product Category does not appear to exist, a formal request for review is submitted to QuEST Forum by the Registrar

A standing agenda item at each Product Category Sub-team meeting is to review requests for Product Category Classifications

The Product Category Sub-team notifies the Registrar of their recommendation

Does the Company agree with the Product Categories assigned?

The company and Registrar clarify why they disagree with the Product Categories assigned.
